

LARON

Field Machining

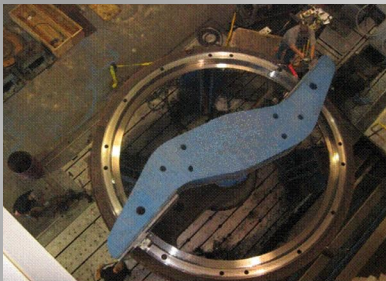

Milling

- Portable milling machines with up to 84" of travel
- Up to 15 horse power hydraulic drives
- Capable of achieving flatness of less than .002" variation per linear foot
- Key cutting

Drilling

- Portable drilling up to 7" diameter with no pilot hole
- Inch and metric threading capability
- Stud removal experts

Flange Facing

- Flange facing equipment to 264" diameter
- Profiling capability
- Capable of achieving flatness of less than .001" variation per linear foot
- Phonographic finishing

Shaft Turning

- Shaft turning to 48" outside diameter
- Taper ID and OD turning
- Base-metal-repair/replacement, internal and external surfaces

800-248-3430

Services

Field Services	Predictive Maintenance
Electrical Apparatus Repair	Equipment Storage
Mechanical Repair	Custom Services
Machining	Fabrication

Boring

- Portable boring bars from 1-1/4" to 4" diameter
- Bores up to 50" diameter x 48" long
- Automated bore welding
- Facing head capability
- Line boring

Precision Measurement

- Laser and optical measuring
- Computer documentation of measurements
- Laser tracker

Pipe Beveling

- Clamshell pipe cutters
- Pipe end preparation to any weld profile
- J-bevels

Equipment

- Journal squirrel (shaft turning up 48" diameter)
- Flange facer (diameters up to 264")
- Milling machine (any configuration)
- Boring bars
- Keyway cutting

Personnel

- Laron® Machinists and Mechanics are experts in rebuilding, repairing and troubleshooting rotating equipment including: pumps, gear boxes, gyratory, cone and jaw crushers, electric motors, generators and all types of turbines
- Laron® Mechanics, Machinists, Electricians and Millwrights are experts in every aspect of field industrial repair
- Laron's "Fly Away Tooling" approach enables a near immediate response and ensures that our Field Service crews will arrive fully tooled and ready to work on any worksite
